QLIMA KRISTAL PREMIUM QUALITY FUELS

The certainty of Qlima Premium Quality Fuels

Qlima is the European market leader for heater fuels. After more than 30 years of innovation, today Qlima produces only premium quality fuels. Our secret lies in the combination of our unique in-house 'from ship to shop' production concept and our highly qualified dedicated people, who are willing to realise breakthroughs. The quality of our fuel is continuously monitored by independent monitors from external laboratories. These organizations belong to the best in the market for independent inspections, testing and verifications. The end result is the most clean, pure and powerful fuels with the best performances available in the market.

In its product and packaging development, Qlima constantly respects the environment. A good example of this is the introduction of the PET eco can – a Qlima innovation that ensures fuel cans are now 100% recyclable. All in all Qlima is able to guarantee the highest in quality, efficiency and comfort, thus providing you with an ultimate heating experience.

The certainty of Qlima Premium Quality Fuels; highest quality, highest efficiency, highest comfort.

Qlima advises consumers to use Qlima Premium Quality Fuels in combination with a Qlima heater that has a laser burner system, in order to achieve the ultimate heating experience.

Qlima Performance Meter

By using Qlima Premium Quality Fuels Qlima guarantees customers the highest quality, the highest efficiency and the highest comfort. All Qlima Premium Quality Fuels have an outstanding performance. The difference between the various Qlima labels is very small, the difference with other brands is relatively high. In order to explain the difference between the labels in not a too technical way we have developed the Qlima Performance Meter. For each label four aspects are measured, the outcomes are simply displayed in a bar graph.
