The certificate was first issued on:

1st May 1995

Labelling Licence Basis:

Danish Indoor Climate Labelling: Testing and Labelling Criteria for Wall and ceiling systems, 4th edition, 2007. The maximum acceptable time-value for wall systems is determined as 100 days. The certificate applies to products considered to be identical with the tested product regarding indoor climate characteristics as specified by the labelling criteria.

Product Characteristics:

The certificate and the declared indoor-relevant time-value comprise exclusively the product group characteristics in relation to odour and irritation of the eyes, nose and upper airways. The declared in-door-relevant time-value is determined on basis of the results of chemical analyses as well as sensory evaluations. Declared time-value:

10 days

Product information Requirements:

The holder of the certificate is required to present the following product information on demand in order to avoid any adverse effects of the product on the indoor climate in practice: product specifications, a list of trade names covered by the certificate, guidelines for projecting, transport, storage, assembly, limitation of applications, cleaning and maintenance.

Monitoring and Renewal of Labelling Licence:

Danish Indoor Climate Labelling monitors and exercises control in accordance with its procedures in force at any time. The certificate is valid only in combination with the present schedule stating the dates of first issue, renewal and expiration, and signed by the Certification Manager of Danish Indoor Climate Labelling.

The application for renewal of the labelling licence filed by the certificate holder has been considered according to the requirements of the Danish Indoor Climate Labelling with a satisfactory result:
